Our excellent science-based products can contribute significantly to supporting metabolic functions and overall wellness!

IDEAL FOR ALL THOSE WHO...

- are health-conscious and look for simple solutions to maintaining wellness

PRODUCT DESCRIPTION

Healthy and strong with vitamin C: Unicity Bio-C contains various forms of highly effective vitamin C in combination with bioflavonoids.

Research shows that vitamin C plays an important role in many body functions: It supports the maintenance of healthy bones, muscles and blood vessels, contributes to the body's healthy defences and improves iron absorption. It also helps protect cells from oxidant stress. The added citrus bioflavonoids support optimal absorption by the body.

Bios-C is the best choice for a consistent vitamin C supply!
