This incredibly tasty coffee blend is prepared in no time and provides you with sustained energy. And best of all: BioReishi FX is low in sugar and therefore perfect for your stable glucose and insulin levels!

Energy boost
throughout the day

Low carb
energy

Perfect start
to the day

REISHI – TRADITIONAL HEALING POWER FROM TCM

Coffee with mushrooms? Yes please! Reishi, the “mushroom of immortality”, is among the most important and precious ingredients of traditional Chinese medicine, and has been for thousands of years. This precious mushroom is antioxidant,

particularly rich in vitamins and minerals and has a high content of triterpenoids and beta-glucan. It is said that the power of the Reishi was once reserved only for monarchs!

More information on our scientific work on Unimate and other Unicity products can be found at unicityscience.org.

SUSTAINED ENERGY YOU CAN COUNT ON

Coffee is a proven pick-me-up, but more and more people swear by the combination of coffee and high-quality fat. Caffeine gives you a quick energy boost and promotes concentration, while the easily digestible fats from coconut oil provide

long-lasting energy. In addition, BioReishi FX contains only few carbohydrates and thus contributes to a stable blood sugar level. That way you stay fit and full of energy for a long time!

Caffeine for more energy and focus

Coconut oil with a high content of easily digestible, medium-chain fatty acids

Reishi, the “mushroom of immortality”, has a high content of triterpenoids and polysaccharides (especially beta-glucans)

The sweetener erythritol induces a lower blood glucose rise after consumption compared to sugar

Recommended Use*

Add one packet to 150 ml of hot water and stir well.

TIP: For a BioReishi FX iced coffee, prepare one sachet as described above. Add another sachet of BioReishi FX and more water to taste. Serve with ice.

NOTE: * Contains milk, tree nuts and sweetener.
