firmer appearance
of the skin

Helps reduce
the stress from free
radicals for the skin

Reduces the
appearance of fine
lines and wrinkles

Supports and
maintains skin
hydration

Key Benefits

UNICITY OASIS – A NEW DIMENSION IN SKIN CARE. WHAT'S INSIDE?

Hyaluronic Acid

A naturally occurring substance found in the body that holds around 1000 times its weight in water. Keeps tissues lubricated and moisturized.

Marine Collagen

Easily digestible collagen to promote a firm skin appearance. It comes from sustainable sources as it is derived from the skin of otherwise processed fish.

By the way: Unicity Oasis offers 268 mg of hyaluronic acid and 1700 mg collagen per serving - more than many comparable products!

Mixed Berry Flavour

Formulated with a delicious berry flavour, Oasis is a healthy, beneficial beverage that is easy to drink.

Vitamin C (Ascorbic Acid)

A potent antioxidant that supports collagen synthesis and contributes to the protection of cells against free radicals. In skin care, Vitamin C is considered an important active ingredient for an even skin tone.

TIP

The full effect of the collagen in Oasis unfolds after several weeks of use.
