UNICITY

MORE THAN AN AFFAIR OF THE HEART

Easy support for your entire metabolism:
Unicity Omega Life-3 Resolv contains concentrated fish oil with a high content of the unsaturated fatty acids EPA and DPA as well as other supporting active ingredients. Only Unicity Life-3 Resolv is produced using a patented process to increase resolvins production, which the body derives from omega-3 fatty acids.

Concentrated
Fish Oil

Supports
Cellular Metabolism

With Antioxidant
Vitamin E

No Fishy
Aftertaste

THE POWER PACK FOR OPTIMUM EFFECT

Omega Life-3 Resolv contains a highly effective combination of concentrated fish oil, L-arginine, wintergreen oil and vitamin E acetate. This combination enables our bodies to optimally utilize the DHA and EPA contained in Omega-3 and convert them to resolvins.

These molecules play an important role for your metabolism, especially in inflammatory processes.

Omega Life-3 Resolv increases the production of resolvins from DHA and EPA up to ten times!

NUTRITION AND CELLULAR HEALTH

Polyunsaturated fatty acids include not only omega-3 but also omega-6 fatty acids which also play an important role for a healthy metabolism. They are mainly found in meat, eggs and milk fat. However, the amount you eat matters: Too much omega-6 blocks the omega-3 fatty acids and their anti-inflammatory effect. That is why experts recommend a ratio of no more than 4:1 – better still 1:1 – of omega-6 to omega-3 fatty acids in food.

Omega-3 fatty acids are found in some plant products, such as linseed oil, chia seeds and algae. However, the best source is fatty sea fish. Omega Life-3 Resolv is the perfect alternative for those who want to maintain a balanced diet without having to overthink what they eat.

RECOMMENDED USE

Take two soft gel capsules daily with water. For best results, take with a meal.
